

Musical Explorers

Every child is inherently musical and has the ability to express themselves through the medium of sound.

What do you do when your child has outgrown baby music sessions, but isn't yet ready for formal music lessons?

Musical Explorers sessions are designed to bridge that gap, nurturing children's musical creativity, and supporting and empowering their musical journeys.

We introduce and explore the basic elements of music (pulse, pitch, rhythm, timbre, articulation) via multi-sensory activities.

Jointly delivered by [Rhythm Circle](#) and [B'Opera](#), our approach is grounded in good practice from Early Years education methods and exploratory play. All classes are delivered by highly-trained teachers with extensive musical training and experience.

Musical Explorers sessions are inclusive and enjoyable as multi-generational and family events.

**** To book classes, click on this link to our [Booking Form](#)**

About our online sessions

- Small group / 10 children - to maximise individual attention.
- All sessions will be run and taught live online on Zoom by a DBS checked Rhythm Circle / B'Opera teaching staff.
- Our Zoom sessions are secure, private and password - protected. Weekly invitations will be sent out so that you can join the sessions. You will need to download the Zoom app (available on the App store or Google play). To get the best experience, we advise running the app on a tablet, laptop or desktop as a smartphone screen is too small to see details clearly.
- Upon joining the Zoom sessions, all participants will be put in a virtual 'waiting room' and let into the session at the start time.

Materials

You will need **paper, pencils, marker pens / coloured pencils / crayons.**

A weekly email with download links will be sent for the following week.

Any specific materials needed will be either posted to you in advance or a list will be sent - don't worry, we won't be asking you for anything unusual like sandpaper or drumkits!

The materials we ask you to gather will be easily found in the home environment like sugar, lemons, pots and pans, torches.

If you have any additional questions , please get in touch and we will do our best to answer your concerns.

About Us

Rhythm Circle is a music education initiative based on multi-sensory methods.

The basic elements of music (rhythm and pulse, pitch, dynamics, articulation, tempo) are taught to young children using games and activities.

B'Opera make beautiful music for young ears, through high quality, interactive musical experiences.

We believe children need to participate freely in cultural life and the arts, and we aim to make performances available to babies, toddlers and their grown-ups of all backgrounds.
